INTRODUCTION

The Faculty Management System (FMS) is a desktop application developed using Java Swing to manage faculty-related information such as students, lecturers, courses, departments, and degrees.

The system follows the MVC architecture and uses JDBC with MySQL for database management. It provides different features for Admin, Student, and Lecturer users according to their roles.

Admins can manage student, lecturer, course, department, and degree details. Students and lecturers can view and update their profiles and access their academic information.

This project was developed as a CTEC 22043 group assignment using Java Swing, MySQL, and GitHub. Each team member contributed to different parts of the system, including coding, database development, and documentation.

Team Members and Contribution

Student Name	Student Number	Git Hub Username	Contribution
K.C.D Jinendra	CT/2022/023	chirathDinuka	CourseDAO.java DegreeDAO.java DepartmentDAO.java LecturerDAO.java StudentDAO.java UserDAO.java
K.G.D.D Jayarathna	CT/2022/039	Dulina-Jayarathna	AdminController.java LecturerController.java LoginController.java StudentController.java Demo vedio
K.T.H Uluwaduge	CT/2022/043	kevinThulnith	Course.java Degree.java Department.java Lecturer.java Student.java User.java README.md
H.M.S Dahanayaka	CT/2022/061	hasini-codes	AdminDashboardView.java, AppTheme.java, CourseFormView.java, DegreeFormView.java, DepartmentFormView.java, LoginView.java
M.A.L Dilshani	CT/2022/065	lakma-dilshani	schema.sql sample_data.sql Main.java Docs (FMS-GroupF.pdf)
W.D.U Wickramasinghe	CT/2022/071	Dinuushaa17	DatabaseConnection.java LecturerFormView.java LecturerDashboardView.java StudentDashboardView.java StudentFormView.java
